Year: 2015-16 Activity: Employee Training

Description: As a small market with University student population from four colleges, we find it much easier to recruit and train entry-level employees than convince people in other markets to move to our town. Because of this fact, we've instituted a training program that allows the people we've already hired to move up into positions of responsibility at the stations. Our programs are a mixture of internal and external training.

In past years we have promoted a part-time traffic assistant to begin full time work scheduling commercials. Another part-time student worker was promoted to full time employment at the stations. We encourage shadowing current full-time We offer an open opportunity for any of our promotional assistants, part-time announcers, and office interns to move onto a track that provides skills and training for full time employment at the stations. We encourage shadowing current full-time employees. We pay for staff to attend conventions for exposure to issues in broadcasting. In the relevant period we paid for 6 members of our staff to attend broadcast conventions.
